Patrick,

This is to follow-up to our phone conversation on Monday afternoon (5 May). Daron and I have looked through the Reg's and discussed what has been done in the past with temporary cessations. The rules are pretty vague as to what is required to restart operations, but based on what we read and the experience from past operations, as long as the Wellington plant operation follows the currently approved plan, all you should need to do is notify the Division that operations were recommencing, and the Division would resume monthly monitoring.
